PLEASE TELL THE TRUTH —The *Intelligencer*, craftily catching at items, quotes part of what we said in regard to Col Kelly. Tell the whole, and we will stand by it Col Kelly represents a bad party and a disreputable platform He deserves no sympathy His personal friends are driven away from him and must beat him, as they surely will We do not believe that he is so mean as to ask support upon issues, which he knows are "insufficient to give him strength" He is claiming support upon issues which kill the Government His friends are the friends of Jeff Davis No patriot, no hearty friend of the Government, will give him any vote He asks only those who hate the Administration his friends are the enemies of the country We must not, we cannot help a man who is striking to the utmost of his power, to destroy and to ruin the integrity of the Republic Col Kelly has personal qualities which all respect but he must be beaten, he must be whipped of course

INDIAN DEPREDATIONS IN DOUGLAS COUNTY — A Mrs Jane Dirt, living, seven miles from Scottsburg, in Douglas county, was attacked by Indians on the morning of the 20th inst, while at work in her garden She was shot at with arrows, four of which took effect upon her person, after which they beat her with a stone and threw the senseless body into a creek near her house They next pitched upon and killed two little girls leaving them for dead They took all the booty they could carry and left the place carrying with them an infant which was afterwards found in a muddy creek little injured The mother recovered and crept to a neighboring house, where she remains in a critical condition The little girls are doing well and will be likely to live A party of six men started in pursuit of the Indians, but returned at the expiration of a fruitless search of two days

THE RAPID EXTENSION — Superintendent Hall S Bell of the California State Telegraph Company left yesterday morning for Puget Sound and Victoria, to inspect a route for the construction of a line of telegraph through to the British Possessions It is said that a level, short and comparatively clear route can be found in Cowlitz Landing, through a chain of beautiful and fertile prairies, to the Sound, which if the case, would much more eligible, as the route now opened to the Sound if the report is true we hope it will be improved, and we might thus be brought much nearer a host of subscribers than we are by the present road, and the tendency of such improvement would expedite as well as cheapen transportation

THE PANORAMA —We are very glad to announce that the agent in charge of the admirable display of the excellent pictures of the war, has consented to give an exhibition this evening, for the benefit of the Sanitary fund. With their usual generosity, Messrs Leonard & Green make no charge for gas, and there is nothing to be said for advertisements. We hope there will be a full attendance to-night, for really the exhibition deserves popular patronage

UNWELCOME NEWS —The intelligence from the East, published for several days past, is unaccountable The Government ought not to be defeated in any of its plans with the power, that belongs to us as a nation, it is inconceivable that a miserable section should gain such material advantages, as by late dispatches seem to be claimed. We do not know what it all means, but we are sure that there is a just God, who will do all things well.

GOVERNMENT WAGONS FOR ABOVE — The steamer *Vancouver* yesterday brought over two new Government wagons from the Quartermaster's department, at Fort Vancouver, which were loaded on Couch's wharf, for shipment to the "A Q M, Fort Yamhill" They will be forwarded per steamer *Senator*, this morning.

ARREST AND CONFISCATION —William Prey was arrested on Wednesday last, near an Indian ranch on the Cowlitz river, for selling liquor to the Indians He will be taken to Vancouver for trial His boat a small sloop, and a quantity of liquor, were seized, and will probably be confiscated

DEPARTURE OF THE PACIFIC —A telegram informs us that the steamship *Pacific*, Capt. A. N. Burns, left San Francisco for Portland yesterday,

Appeal of the Ladies Sanitary Aid Society to the People of Oregon

At a meeting of the Ladies Oregon Sanitary Aid Society held in Portland April 22d the following address to the patriotic citizens of Oregon and Washington Territory was adopted

From late reports of the Sanitary Commission we learn the necessity of a *very large increase* in order to enable them to execute the work they have undertaken In view of this fact we would recommend to the friends of the cause the following resolutions

Resolved, That we recommend all the Churches and Congregations of the State of Oregon and Washington Territory to take up collections for the Sanitary Commission on Christian Commission once every month

Resolved, That we recommend all other Societies formed or to be formed, for the collection of funds for this purpose to meet monthly

Resolved, That we suggest the expediency of an organized Sanitary Aid Society in every township which Societies shall have Central Committees in the county seat of each county which Committees shall receive the moneys collected by the several Societies and transmit the same to the Agent of the Commission (Hon A Bush) at Portland And we would further suggest that the collections in different parts of the State be taken at such a time in the month, that they may be received by the Agent in Portland previous to the 15th of the month, thereby enabling him to publish a monthly report of the contributions of the State and Territory

In order to carry these resolutions into practice and accomplish the purpose of creating a fund which may be relied upon to defray the expenses of this greatest charity of the age, we appeal to all pastors to present the subject of the foregoing resolutions to the proper authorities in their several congregations, and where there are no Sanitary Aid Societies organized, to suggest the matter to the ladies of their congregations We also appeal to the presiding officers of all other Sociedtys Associations and regular assemblies to present the subject to the various bodies over which they preside and to act as agents of the Sanitary Aid Societies in receiving the donations of their various Societies

And lastly, we appeal to every woman, cherishing the memory of the brother who shared her childhood's happiness and griefs, and through her youth was to her the model of manliness and worth, —who reverers the gray hairs of her father, or rests in womanly weakness upon the strong arm of her husband, feeling that if he was taken from her, life could be no longer bright, or—who looks with the pride that none but a mother can know, upon a son dearer to her heart than its own life blood, to remember what our sisters on the eastern slope have been called upon to sacrifice,—and the many homes whose strength and pride have been freely given at their country's call

And while our hearts are filled with joy that our loved ones are all here with us let us prove our sympathy with those who offer their lives at the Country's altar, by using our utmost endeavors to send to them the means of ameliorating the condition of the sick and wounded, and in so doing, not only serve the cause of humanity, but aid our Country's cause by adding to the strength and efficiency of the forces in the field, and also receive to ourselves the greater blessing as it is more blessed to give than to receive

MRS O. E. GIBSON, Vice Pres.
MRS A C GIBBS, Secretary.

Letter from Placerville.

[FROM OUR REGULAR CORRESPONDENT]

PLACERVILLE, Boise Co, I T,
April 17th, 1864

Since my last the clerk of the weather has seen fit to change his programme, and sunshine, and Spring in all its glory, now succeeds that gloomy and trying weather, which I mentioned as prevailing in my last The south hill sides are fast shedding their coat of snow, and making way for the indefatigable miner, who is everywhere seen delving, as if intent on leveling the giant hills and placing them in the position in which Portland was first seen by that enterprising pioneer, Joe Meek, "a hole in the ground"

MINING

Is brisk with those whose claims are open, but the money appears to have stuck in the pockets of the honest miner whose luck it is to have a good claim much to the disgust of the merchants and sports who forte it is to plead the working man. The ominous signs, selling out at cost" are hanging over the doors of the oldest established merchants, and those posted in the trade say they are wise men, as the "web-foot packers" would kill the best business ever started To some of your readers it may appear strange how a web-foot packer, as he is called, would run an established house. This is how it is done A web foot starts from Portland, ships his freight for ten animals from home to the Dalles, there he packs up and starts with high anticipations of that nice little sum which his venture is bound to realize, and wondering if it is at all probable whether that purse which the good wife made him before starting will be large enough to hold it all Well, Placerville is reached, and the golden bowl is broken, though goods are a drug in the market The web foot cannot wholesale them, and he must realize on them to pay the hired man who taught him the diamond hitch So, as a last resort the goods are piled up in the plaza, and a man of stentorian lungs employed to praise the quality and regret the price The miners rush up, and presto! in half an hour the web foot has sold out at quite an advance on cost, freight excluded, the hired "packer" is discharged, and the "old man" and 'Jake" conclude as how they have got the diamond hitch and will pack no freight hereafter

The different tunnels on Granite Creek are being pushed forward and everything in the quartz line denotes development The Gold Hill Company struck a streak of $4 000 rock and are now sinking down to develop the width of the vein.

No shooting or cutting has transpired since my arrival, a fact superinduced perhaps, by the august dignity of our Justice of the Peace whose proportions, were they as expansive as his ideas would fill the universe

The excitement remains in *statue quo*, until the messengers who have gone out return, when, of course, every one and his neighbor will be off to the new El Dorado which lends such enchantment to the view CRAYON

REASONS FOR GIVING UP —Well, Sir, if you would know why I deserted the Confederate service, I will tell you. It is not because of the hardships of camp life, or the belief that our cause is not a holy one I believe that the South is right, that the General Government has no constitutional power to coerce States, yet I deserted, and have just taken the amnesty oath Well you may be astonished My reasons for deserting are I could no longer fight against a Government that is feeding my wife and children and keeping from my door starvation and want I have been in the Confederate service over two years, but when I found that the United States were feeding gratuitously the families of those in arms against them I resolved that I would no longer carry a Confederate sword "

Such is the language used by a rebel captain who recently came into our lines at Chattanooga, gave himself up and took the oath

The opinion prevails in Washington, Baltimore and Annapolis, that the James river would be the base of operations for this force Gen Butler is under Burnside, and that he is to land a short distance below Drury's Bluff, which he is to take by assault whilst Meade arrests Petersburg Troops have been passing through Baltimore for the last two months The regiments are spoken of as being full but of many different discipline

Rumors are afloat that the rebel government is leaving Richmond and Lee is falling back behind its defences

FORTRESS MONROE, April 25 —The steamer *Euclid* arrived to day, having left Newbern N C, on the 23d All was quiet, and there had been no demonstration by the rebels

NEWBERN N C, April 23 —Reports from Plymouth say that our flag still flies over the fortifications there, though the enemy has possession of the town and river It is said that Gen Wessels retired with his forces to the fortifications with 15 days provisions This report is believed Washington and Newbern are much stronger fortified than Plymouth, and with a few more troops and gunboats which are said to be on their way, can be held against rebels.

CHICAGO April 27 —The Navy Department has the following in regard to the attack on Plymouth

On the afternoon of the 17th, Fort Gray, above Plymouth was attacked by the rebels with a battery of six field pieces on a sand bank about a mile and yards up the river At early dawn on the 18th the enemy charged on the Fort and were repulsed Later in the day the enemy appeared in force in the rear of the town and at noon two companies of a vigorous attack on Forts Williams and Wessels and were repulsed in three assaults The gunboat *Southfield* was shelling the rebels constantly, and at 5 o'clock on the 20th the rebel ram dropped down the river, and when near the *Southfield* ran over her starboard bow the prow of the ram running into the *Southfield*, causing her to sink in 15 minutes The *Miami* was pursued for a short distance by the ram, but in consequence of her superior speed the gunboat escaped Some of the officers and men of the *Southfield* are prisoners but most of them escaped The gunboat *Miamhill* was sunk on Monday night the 18th An incessant cannonading of the rebels was effected by the gunboats at Fort Gray The gunboats assisted an the big guns of the Fort opened for nearly two hours on the rebel position, repeatedly making huge winrows of their ranks This engagement was only equalled in execution and slaughter by the great battle of Murfreesboro Hill where the navy poured such raking fires of grape and shell into the enemy Gen Wessels on the 17th, ordered all non combatants to leave town

CAIRO, April 26 —The citizens of Hickman, Ky reports a camp of 40 000 rebels at Dresden, 22 miles back of that place The rebels are well armed and clothed, and have plenty of provisions.

SAN FRANCISCO April 28 — Gould's dispatches quote gold in New York from 170½ to 171¼

The market for tea is somewhat excited by advices from Washington, of the increase of fifty per cent on all duties to take effect immediately and continuously (?)

The receipts of the Custom House yesterday reached the sum of 200 000 dollars, the largest business ever done

In the market flour extra is worth $7 50 superfine $6 50 Wheat, $2 77½ Barley $2 80@3 00 Oats, $3 00 All have an upward tendency

THE ELEPHANT —The Bloomington *Pantagraph* gives the following humorous "take off" on the troubles of the Democracy

This gigantic and irresponsible pachyderm is just now becoming painfully visible to the Democracy In fact they "see it" with far greater frequency and distinctness than they did the "Salvation of the Lord," for which gratifying spectacle they have long been standing still to very little purpose, stretching their necks in agony and praying "O Lord, how long"

The Elephant will be present at the Chicago Convention, bringing his usual list of perplexing questions and dilemmas If they had only a perfect platform big enough for all to stand up on they would not now be so hopelessly stuck in the mud, but that is what's the matter Let us look at a few of these difficulties in the way of the platform builders

They can't advocate peace, because the nation at large favors the war

They don't dare to build a war platform, because the Democratic party at large favors peace.

They must get hold of the spoils somehow

They can't do this without the votes of the people

They can't get the votes of the people.

They don't dare to nominate Seymour, because he has got too many friends

They don't dare to nominate McClellan, because he has too few friends

They can't nominate Grant for his friends are all Union Abolitionists

They can't stay conservative, for the age is progressive

If they turn progressive, they are no longer Democrats but Abolitionists or insane

They must unite their factions or be defeated

They can't unite

They must do something immediately if not over

They want to do it awfully

They want to see the "salvation of the Lord."

They don't know how to do it

They can't see it

Poor fellows!

SANGUINE AUTHOR —A poor clergyman, in a very remote county in England, had, on some popular occasion, preached a sermon so exceedingly acceptable to his parishioners, that they entreated him to print it, which, after due and deliberate consideration, he promised to do This was the most remarkable incident of his life, and filled his mind with a thousand fancies. The conclusion, however, of all his consultations with himself was that he should obtain both fame and money, and that a journey to the metropolis to direct and superintend the great concern, was indispensable After taking a formal leave of his friends and neighbors, he proceeded on his journey On his arrival in town, by great good fortune, he was recommended to the worthy and excellent Mr Bowyer, to whom he related the object of his journey The printer agreed to his proposals and required to know how many copies he would choose to have struck off? "Why, sir," returned the clergyman, "I have calculated that in the kingdom there are so many thousand parishes, and that each parish will at least take one, and others more, so I think we may safely venture to print about thirty five or thirty six thousand copies" The printer bowed, the matter was settled, and the reverend author departed in high spirits to home With much difficulty and great self denial, a period of about two months was suffered to pass, when his golden visions so tormented his imagination, that he could endure it no longer, and accordingly he wrote to Mr Bowyer, desiring him to send the debtor and creditor account most liberally permitting the remittances to be forwarded at Mr B's convenience Judge of the astonishment, tribulation, and anguish, excited by the receipt of an account charging him for printing thirty five thousand copies of a sermon, £785 5s 6d., and giving him credit for £1 5s 6d, the produce of seventeen copies, being all that had been sold This left a balance of £784 due to the bookseller

All who knew the character of this most amiable and excellent printer, would not be at all surprised to hear that, in a day or two, a letter to the following purport was forwarded to the clergyman

"*Reverend Sir* I beg pardon for incautiously assuming myself at your expense, but you need not give yourself uneasiness I know better than you the extent of the sale of single sermons, and accordingly printed but fifty copies, to the expense of which you are heartily welcome, in return for the liberty I have taken with you"

THE CARE OF THE EYES —Never use a desk or table with your face toward a window, In such case the rays of light coming directly upon the pupil of the eye, and causing an unnatural and a forced contraction thereof, soon permanently injures the sight When your table or desk is near a window, sit so that your face turns from, not towards it, while you are writing If your face is towards the window, the oblique rays strike the eye and injure it nearly as much as the direct rays when you sit in front of the window It is always best to sit or stand, while reading or writing, with the window behind you, and next to that, with the light coming over the left side—the light illumines the paper or book, and does not shine abruptly upon the eye ball The same remarks are applicable to artificial light We are often asked which is the best light—gas, candles, oil, or camphene Our answer is, it is immaterial which, provided the light of either be strong enough and does not flicker —*Scientific American*.

WHAT "CRUDE BULLION" IS —The Gold Hill, N T, *News* says

What is spoken of by the papers of this Territory as "crude bullion," crude "amalgam," etc is the cakes of silver, and what other metals there are mixed with it as they come from the retorts of the various mills It is sometimes in large square cakes of the same size as the pans in which the amalgam was placed for retorting, and again in lumps of no particular form, just as it crumbles up on being taken from the retorts When a very strong heat is applied in retorting the silver partially melts, and a solid cake is the result where the heat was not so strong, the cake must be easily broken to pieces This retorted amalgam whether in cakes or crumbled into lumps is the crude bullion and is received by the assayers to be moulded into solid bars and assayed,

MEETING OF THE COMMON COUNCIL.—The regular weekly meeting of the Common Council was held last night, Mr. McCraken, President of the Board, in the Chair.

Councilmen present Messrs. Bennett, Felt, Fraser, Goodnough, Gradon, Hurgren, Robinson and Starr.

Minutes of the last meeting were read and approved.

On motion, the rules governing the late Board were adopted, until such time as new ones should be framed.

Petition of residents and property holders in the Third Ward, for a system of drainage in the vicinity of the Public Square, was referred to committee on streets and public property.

A communication was received from Recorder McCoy asking permission to purchase stationery for the use of city officers, which was referred to, the committee on accounts and current expenses, and the chairman authorized to purchase whatever the committee deem necessary.

A summons from the council of plaintiffs in suit connected with lots on the Lownsdale tract, to which the city is defendant, was read and referred to the judiciary committee.

The special committee on the Mayor's Message presented a report recommending a number of the several suggestions therein contained, to the appropriate standing committees. Report adopted.

Warrants were ordered drawn in payment of following bills: S. A. Moreland $6, Langley & Ross $4; E. W. McCraw $28 50; Hall & Co $3 00. The bill of Wm. Winney, rebuilding over Bills of Portland Gas Company $164, Jas. Burke $160, and J. D. Dunbar $132, were referred to committee on accounts and current expenses.

On motion the City Surveyor was directed to proceed at once to define the boundaries of streets in order that property holders might know where to build, and the lines of public grounds be preserved from future irregularities.

Inquiry was made as to the pay of the City Surveyor. Reference to ordinances showed his present compensation was $10 for each survey as ordered, and $3 for such additional assistance as he might require.

On motion the Council proceeded to an election of Street Commissioner, and upon the 2d ballot Nelson Northrup was declared duly elected.

After some suggestions exhibiting a strong desire to further the best interests of the city the Council adjourned.

SAVAGE BRUTALITY.—A case of inhumanity was brought to our knowledge yesterday which baffles description, and puts to shame the worst accounts of barbarity we ever heard of when it is remembered that it is a case practiced under the shadow of the cross of a christian community, in the full purchase and enjoyment of life, liberty and happiness. We give the case, and leave the rest to the feelings. A child stopping with a family living on the "Stewart Donation Claim," in the canyon leading from this city, has been undergoing a series of tortures for some time past, and was recently imprisoned in a party where it has been kept for some days without proper food to eat with or nothing, and no bedding to sleep upon. It is also being cruelly beaten the child bearing evidence to indicate that it had been done. An attempt was made to rescue the child from its impending doom, by humane citizens, which failed, whereupon petition for a writ of *habeas corpus*, which was granted, and the proper papers were issued and placed in the hands of Sheriff Lamb, who at once proceeded upon his mission of mercy, accompanied by two or three of our citizens. Upon reaching their destination it was found the facts had not been exaggerated, and he brought the little sufferer to this city, where it will receive proper attention. Warrants were issued for the arrest of the inhuman perpetrators of the outrage, and the man was lodged in jail. His wife, having small children of her own, was permitted to remain at home until this morning, when an examination of the case will take place in the County Court.

TEST.—United States Steamboat Inspector Burnett, yesterday applied the hydraulic test to the boiler of the steamer *Rescue*, and after all other requisite investigations, including the examination in a thorough manner, and expressing himself well satisfied with the result. He has with him all the necessary appliances for the prosecution of his duties, taking, including, besides the usual instruments of a practical engineer, a steam section and leading hose, gauges, &c., all of the best material, and in perfect order. The boiler, which is of 5 16ths iron, withstood the hydraulic pressure of 165 pounds to the square inch, and would doubtless have sustained a greater pressure had it been applied. In the ratio provided by the regulation the engineer is authorized to carry 82 pounds of steam—a quantity exceeding any probable demand during the year.

MAY FESTIVAL.—The pupils of the Portland Female Seminary, contemplate holding a May Festival on Ross Island, a short distance above the city, to morrow. Mrs. Kellogg, of the steamer *Senator*, has kindly tendered the participants a free passage to and from the Island landing, and they will assemble at the Methodist Church at half past six o'clock in the morning. The boat will leave Vaughn's wharf at 7 o'clock. A good time is anticipated.

MATRIMONIAL.—The two young and happy couples spoken of yesterday morning as being about to Vancouver, returned yesterday morning, having shipped for a voyage over the sea of matrimony. Warm weather seems to produce an amalgam, results in these regions, for on that this week having witnessed the nuptials of no less than five couples at the Gretna Green of Oregon.

LOVELY OPPOSITION.—This morning, according to previous announcement, the opposition on the Cowlitz route commences. The *Cowlitz* and *Express* both leave for Monticello and Pumphrey's Landing, and we have no doubt that trips will be quick and fares low enough. Those on sides are fun for the public, but death to steamboat owners.

BOUND FOR THE UPPER COUNTRY.—Messrs. Burke & Gilmore have recently dispatched to the summer fields of sheep, besides a large herd of cattle, for the mining region, for consumption.

A YOUNG INQUIRER.—A few mornings since a lady with her two children, who are on a brief visit to this city were at the table of a family accustomed to say grace before meals. The eldest, a sharp child of about five years, listened silent and attentive during the ceremony, and kept very serious until he left the table, when he went quietly down in the yard and asked her where the gentleman was doing before they commenced to eat. The mother inquired who gave him all the good things he had all the time? He replied "God." "Well" said she "the gentleman was thanking God for all the good things." The next day the gentleman being unwell did not attend the table when little Barnett asked—"then how we going to thank God for these good things?"

ART.—The furniture of the Monitor Hotel will be sold at auction this morning on Front street opposite the What Cheer House. See advertisement.

ERRATA.—The number of prisoners taken by the rebels at Plymouth N. C. was reported at 14,000—it should have read "fifteen hundred."

A Special Meeting of the Ladies Hebrew Benevolent Association will be held on Sunday May 1st 1864 at 2 P. M. at the Vestry Room of the Synagogue.

KEEP IT BEFORE THE PEOPLE.—That Shelby has received by this steamer the finest assorted stock of Boots and Shoes that has ever before been offered in this market. An ocular demonstrator would convince you of the fact. See to it and consult your interest.

Convalescence after Typhoid Fever.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re established. In such cases the PERUVIAN SYRUP supplies a want long felt by the profession and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed. ap25d2t

Dr Hostetter's Stomach Bitters.—The operation of this palatable remedy upon the stomach liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties. It regulates the secretions and thoroughly purifies the blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

It is well known that the medicinal effect of Protoxide of Iron is lost by oxygen very brief exposure to air and that to maintain a solution of Protoxide of Iron, without further oxidation has been deemed impossible.

In the Peruvian Syrup this essential point is attained by the following process: Pure nascent iron and citric acid are brought into reaction, the resulting solution of Protoxide of Iron, without further exposure to the air, is then combined with the Syrup of the Materia Medica.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of the latter part of this century. It is impossible to overestimate its influence as a medicinal agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

LIVER, HEART,
KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the great and ability which have been devoted to the investigation it remained almost useless until Dr Henry Ackers, a physician and chemist of New York after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This combination is pronounced by the scientific world as attested by certificates of analysis from Dr J. R. Chilton of this city, and Prof. Booth U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its merits considered in practitioners see "American Medical Monthly" July 6 1863 page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer, Blood, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increasing nutrition of the body is the result of the entire system of Iodine. The patient recovers flesh, strength and color hitherto pale relaxed and feeble he becomes full, strong and rigid.

PLEASE TELL THE TRUTH —The *Intelligencer*, craftily catching at items, quotes part of what we said in regard to Col Kelly Tell the whole, and we will stand by it. Col Kelly represents a bad party and a disreputable platform He deserves no sympathy His personal friends are driven away from him and must beat him, as they surely will We do not believe that he is so mean as to ask support upon issues, which he knows are "insufficient to give him strength" He is claiming support upon issues which kill the Government His friends are the friends of Jeff Davis No patriot, no hearty friend of the Government, will give him any vote He asks only those who hate the Administration his friends are the enemies of the country We must, we cannot help a man who is striving to the utmost of his power, to destroy and to ruin the integrity of the Republic Col Kelly has personal qualities which all respect but he must be beaten, he must be stopped of course

INDIAN DEPREDATIONS IN DOUGLAS COUNTY.—A Mrs Jonn Dart, living seven miles from Roseburg in Douglas county, was attacked by Indians on the morning of the 20th inst, while at work in her garden She was shot with arrows, four of which took effect upon her person, after which they beat her with a stone and threw the senseless body into a creek near the house They next pitched upon and killed two little girls, leaving them for dead They took all the booty they could carry, and left the place carrying with them an infant child which was afterwards found in almost a starving condition, unharmed The mother recovered and crept to a neighboring house, where she remains in a critical condition The little girls are doing well and will be likely to live A party of six men started in pursuit of the Indians but returned at the expiration of two days search, finding none

TELEGRAPH EXTENSION — Superintendent Hare of the California State Telegraph Company, left yesterday morning for Puget Sound and Victoria, to inspect a route for the construction of a line of telegraph through to the British Possessions It is said that a level, short and comparatively clear route can be found from Coal to Landing, through a chain of fertile and fizable prairies to the eastward This route would be much more eligible and a more direct one than any now opened to the North If the report is true we hope it may be adopted, and we might thus be brought much nearer a host of subscribers than we are by the present road, and the tendency of such improvement would expedite as well as cheapen transportation

THE PANORAMA —We are very glad to announce that the agent in charge of the admirable display of the excellent pictures of the war, has consented to give an exhibition this evening, for the benefit of the Sanitary fund With their usual generosity, Messrs Leonard & Green make no charge for gas, and there is nothing to be paid for advertisements We hope there will be a full attendance to-night, for really the exhibition deserves popular patronage

UNWELCOME NEWS.—The intelligence from the East, published for several days past, is unaccountable The Government ought not to be defeated in any of its plans with the power, that belongs to us as a nation, it is inconceivable that a miserable section should gain such material advantages, as by late dispatches seem to be claimed We do not know what it all means, but we are sure that there is a just GOD who will do all things well

GOVERNMENT WAGONS FOR ABOVE —The steamer *Vancouver* yesterday brought over two new Government wagons from the Quartermaster's department, at Fort Vancouver, which were landed on Couch's wharf, for shipment to the "A Q M, Fort Yamhill," They will be forwarded per steamer *Senator*, this morning

ARREST AND CONFISCATION —William Prey was arrested on Wednesday last near an Indian ranch on the Cowlitz river, for selling liquor to the Indians He will be taken to Vancouver for trial His boat, a small sloop and a quantity of liquor, were seized, and will probably be confiscated

DEPARTURE OF THE PACIFIC —A telegram informs us that the steamship *Pacific*, Capt A Burns left San Francisco for Portland yesterday

Appeal of the Ladies Sanitary Aid Society to the People of Oregon

At a meeting of the Ladies Oregon Sanitary Aid Society held in Portland April 22d the following address to the patriotic citizens of Oregon and Washington Territory was adopted

From late reports of the Sanitary Commission we learn the necessity of a *regular certain* income to enable them to execute the work they have undertaken In view of this fact we would recommend to the friends of the cause the following resolutions

Resolved That we recommend the Churches and Congregations of the State of Oregon and of Washington Territory to take collections for the Sanitary Commission or Christian Commission once every month

Resolved That we recommend all other Societies Associations and regular assemblies to take collections for this purpose once a month

Resolved That we suggest the expediency of an organized Sanitary Aid Society in every township which Society shall keep a Central Committee at the county seat of each county which Committee shall receive the funds collected by the several societies and transmit the same to the Agent of the Commission (Hon A B Stroble at Portland) As we would further suggest that the collections in different parts of the State be taken at such a time in the month that they may be received by the Agent in Portland previous to the 15th of the month, depending him to publish a monthly report of the contributions of the State and Territory

In order to carry these resolutions into practice and accomplish the purpose of creating a fund which may be relied upon to defray the expenses of this greatest charity of the age we appeal to all pastors to present the subject of the foregoing resolutions to the proper authorities in their several congregations, and where there are no Sanitary Aid Societies organized, to suggest the matter to the ladies of their congregations We also appeal to the presiding officers of all other Societies, Associations and regular assemblies to present the subject to the various bodies over which they preside, and to act as agents of the Sanitary Aid Societies in receiving the donations of their various Societies.

And lastly, we appeal to every woman, cherishing the memory of the brother who shared her childhood's happiness and griefs, and through her youth was to her the model of manliness and worth —who reverences the gray hairs of her father or rests in womanly weakness upon the strong arm of her husband, feeling that if he was taken from her, life could be no longer bright, or—who looks with the pride that none but a mother can know, upon a son dearer to her heart than its own life blood, to remember what our sisters on the eastern slope have been called upon to sacrifice —and the many homes whose strength and pride have been freely given at their country's call

And while our hearts are filled with joy that our loved ones are all here with us, let us prove our sympathy with those who offer their lives at the Country's altar, by using our utmost endeavors to send to them the means of ameliorating the condition of the sick and wounded, and in so doing, not only serve the cause of humanity but aid our Country's cause by adding to the strength and efficiency of the forces in the field, and also receive to ourselves the greater blessing as it is more blessed to give than to receive

MRS O B GIBSON, Vice Pres
Mrs A C GIBBS, Secretary.

Letter from Placerville

[FROM OUR REGULAR CORRESPONDENT]

PLACERVILLE, Boise Co, I T, April 17th, 1864

Since my last the clerk of the weather has seen fit to change his programme, and sunshine, and Spring in all its glory, now succeeds that gloomy and trying weather, which I mentioned as prevailing in my last The south hill sides are fast shedding their coats of snow, and making way for the indefatigable miner, who is everywhere seen delving as if intent on leveling the giant hills and placing them in the position in which Portland was first seen by that enterprising pioneer, Joe Meek, "a hole in the ground"

MINING

is brisk with those whose claims are open, but the money appears to have stuck in the pockets of the honest miner whose luck it is to have a good claim, much to the disgust of the merchants and sports who see forte it is to bleed the working man The ominous signs, "selling out at cost," are hanging over the doors of the oldest established merchants, and it is so posted in the trade, say they are wise men, as the "web-foot packers" would kill the best business ever started To some of your readers it may appear strange how a web-foot packer, as he is called, would run an established house That is now it is done A web foot starts from Portland, ships his freight for ten animals from home to the Dalles, there he packs up and starts with high anticipations of that nice little sum which his venture is bound to realize and wondering if it is at all probable whether that purse which the good wife made him before starting will be large enough to hold it all Well, Placerville is reached, and the golden bowl is broken, though goods are a drug in the market The web foot cannot wholesale them, and he must realize on them to pay the hired man who taught him the diamond hitch So, as a last resort the goods are piled up in the plaza, and a man of stentorian lungs employed to praise the quality and regret the price The miners rush up, and presto! in half an hour the web foot has sold out at quite an advance on cost, freight excluded, the hired "packer" is discharged, and the "old man" and "Jake" conclude no how they have got the diamond hitch and will pack no freight hereafter

The different tunnels on Granite Creek are being pushed forward, and everything in the quartz line denotes development The Gold Hill Company struck a streak of $4 000 rock and are now sinking down to develop the width of the vein

No shooting or cutting has transpired since my arrival, a fact superinduced perhaps, by the august dignity of our Justice of the Peace whose proportions, were they as expansive as his ideas would fill the universe

The excitement remains in *statu quo*, until the messengers who have gone out return, when, of course, every one and his neighbor will be off to the new El Dorado, which lends such enchantment to the view CRAYON

REASONS FOR GIVING UP.— Well, Sir, if you would know why I deserted the Confederate service, I will tell you It is not because of the hardships of camp life, or the belief that our cause is not a holy one, I believe that the South is right, that the General Government has no constitutional power to coerce States, yet I deserted, and have just taken the amnesty oath Well you may be astonished My reasons for deserting are I could no longer fight against a Government that is feeding my wife and children, and keeping from my door a ration and man I have been in the Confederate service over two years but when I found that the United States were feeding gratuitously the families of those in arms against them I resolved that I would no longer carry a Confederate sword

Such is the language used by a rebel captain who recently came into our lines at Chattanooga, gave himself up and took the oath

CHICAGO April 27 —The Navy Department has the following in regard to the attack on Plymouth

On the afternoon of the 17th, Fort Gray above Plymouth was attacked by the rebels, with a battery of six field pieces on a sand bank about a thousand yards up the river At early dawn on the 18th the enemy charged on the Fort and were repulsed Later in the day the enemy appeared in force in the rear of the town and at once commenced a vigorous attack on Forts Williams and Wessels and were repulsed in three assaults The gunboat *Southfield* was shelling the rebels constantly, and at 8 o'clock on the 20th, the rebel ram dropped down the river and when near the *Southfield*, ran across her stern and blew the prow of the ram running into the *Southfield* causing her to sink in 15 minutes The *Miami* was ground for a short distance by the ram but in consequence of her superior speed the gunboat escaped Some of the officers and men of the *Southfield* are prisoners but most of them escaped The gunboat *Bancroft* was sunk on Monday night the 18th An immense number of the rebels was effected by the garrison at Fort Gray The gunboats assisted and the big guns at the Fort poured broadsides into the rebel column repeatedly making huge inroads of their ranks This engagement was only equalled in severity and slaughter by the great battle of Malvern Hill where the navy poured such raking volleys of grape and shell into the enemy Geo Wessels on the 17th ordered all non combatants to leave town

THE ELEPHANT —The Bloomington *Illinois Standard* gives the following humorous "take off on the troubles of the Democracy

This gigantic and irresponsible pachyderm is just now becoming painfully visible to the Democracy" In fact they "see it" with far greater frequency and distinction than they do the Salvation of the Lord for which gratifying spectacle they have long been straining still to very little purpose, stretching their necks in agony and praying "O lord how long"

The Elephant will be present at the Chicago Convention, bringing his usual list of perplexing questions and dilemmas. If they had any sense of platform big enough for him to stand up on they would not mire so hopelessly stuck in the mud but that's what's the matter Let us look at a few of these difficulties in the way of the platform builders

They can't advocate peace, because the nation at large favors the war

They don't dare to build a war platform, because the Democratic party at large favors peace

They must get hold of the spoils some how

They can't do this without the votes of the people

They can't get the votes of the people

They don't dare to nominate Seymour, because he has got too many friends

They don't dare to nominate McClellan, because he has too few friends

They can't nominate Grant, for his friends are all Union Abolitionists

They can't stay conservative, for the age is progressive.

If they turn progressive, they are no longer Democrats but 'Abolitionists or insane

They must unite their factions or be defeated

They can't unite

They must do something immediately if ever

They want to do it awfully

They want to see the salvation of the Lord

They don't know how to do it

They can't see it.

Poor fellows!

SANGUINE AUTHOR —A poor clergyman, in a very remote county in England, had, on some popular occasion, preached a sermon so exceedingly acceptable to his parishioners, that they entreated him to print it; which, after due and deliberate consideration, he promised to do. This was the most remarkable incident of his life, and filled his mind with a thousand fancies The conclusion, however, of all his consultations with himself was that he should obtain both fame and money, and that a journey to the metropolis to direct and superintend the great concern, was indispensable After taking a formal leave of his friends and neighbors, he proceeded on his journey. On his arrival in town, by great good fortune, he was recommended to the worthy and excellent Mr Bowyer, to whom he related the object of his journey. The printer agreed to his proposals and required to know how many copies he would choose to have struck off? "Why, sir," returned the clergyman, "I have calculated that in the kingdom there are so many thousand parishes, and that each parish will at least take one, and others more, so I think we may safely venture to print about thirty five or thirty six thousand copies" The printer bowed, the matter was settled, and the reverend author departed in high spirits to home With much difficulty and great self denial, a period of about two months was suffered to pass, when his golden visions so tormented his imagination, that he could endure it no longer, and accordingly he wrote to Mr Bowyer, desiring him to send the debtor and creditor account most liberally permitting the remittances to be forwarded at Mr Bowyer's convenience Judge of the astonishment, tribulation, and anguish, excited by the receipt of an account, charging him for printing thirty five thousand copies of a sermon, £785 5s. 6d., and giving him credit for £1 5s 0d, the produce of seventeen copies being all that had been sold. This left a balance of £784 due to the bookseller

All who knew the character of this most amiable and excellent printer, would not be at all surprised to hear that, in a day or two, a letter to the following purport was forwarded to the clergyman

"*Reverend Sir* I beg pardon for innocently amusing myself at your expense; but you need not give yourself uneasiness! I knew better than you the extent of the sale of single sermons, and accordingly printed but fifty copies, to the expense of which you are heartily welcome, in return for the liberty I have taken with you"

THE CARE OF THE EYES —Never use a desk or table with your face toward a window. In such case the rays of light coming directly upon the pupil of the eyes, and causing an unnatural and a forced contraction thereof, soon permanently injures the sight When your table or desk is near a window, sit so that your face turns from, not towards it while you are writing If your face is towards the window, the oblique rays strike the eye and injure it nearly as much as the direct rays when you sit in front of the window It is always best to sit or stand, while reading or writing, with the window behind you, and next to that, with the light coming over the left side—the light illumines the paper or book, and does not shine abruptly upon the eye ball. The same remarks are applicable to artificial light We are often asked which is the best light—gas, candles, oil, or camphene Our answer is, it is immaterial which, provided the light of either be strong enough and does not flicker —*Scientific American*

WHAT "CRUDE BULLION" IS —The Gold Hill, N T, *News* says

What is spoken of by the papers of this Territory as "crude bullion crude "amalgam etc is the cakes of silver, and what other metals there are mixed with it as they come from the retorts of the various mills It is sometimes in large square cakes of the same size as the pans in which the amalgam was placed for retorting and again in lumps of no particular form just as it crumbles up on being taken from the retorts When a very strong heat is applied in retorting, the silver partially melts, and a solid cake is the result when the heat was not so strong, the cake more easily breaks to pieces It is retorted amalgam, whether in cakes or crumbled into lumps is the crude bullion as it is received by the assayers to be moulded it to gold bars and assayed

MEETING OF THE COMMON COUNCIL.—The usual weekly meeting of the Common Council was held last night, Mr. McCraken, President of the Board, in the Chair.

Councilmen present: Messrs. Bennett Eliot, Fraser, Goodnough, Gradon, Hergren, Robinson and Starr.

Minutes of the last meeting were read and approved.

On motion, the rules governing the late Board were adopted, until such time as new rules should be framed.

Petition of residents and property holders in the Third Ward for a system of drainage in the vicinity of the Public Square, was referred to committee on streets and public property.

A communication was received from Recorder McCoy asking permission to purchase stationery for the use of city officers, which was referred to the committee on accounts and contingent expenses, and the chairman authorized to purchase whatever the committee deem necessary.

A summons from the counsel of plaintiffs in suit connected with lots in the Lownsdale tract, in which the city is defendant, was read and referred to the judiciary committee.

The special committee on the Mayor's Message presented a report recommending a number of the several suggestions therein contained, to the appropriate standing committees. Report adopted.

Warrants were ordered drawn in payment of the following bills: [illegible] S. A. Morse and $61; Langley & Rees $4; E. W. McGraw $28 50; [illegible] $5 50. The bill of Wm. Winney, rejected over. Bills of Portland Gas Company, 1864; Jas. Burke, $160, and J. D. Durham, $132, were referred to committee on accounts and current expenses.

On motion the City Surveyor was directed to proceed at once to define the boundaries of streets, in order that property holders might know where to build, and the lines of public property be preserved from future irregularities.

Liberty was made as to the pay of the City Surveyor. Reference to ordinances showed no present compensation was $10 for each [illegible] orders rendered, and $3 for each additional ordinance in his might require.

On motion the Council proceeded to an election of Street Commissioner, and upon the 2d ballot Nelson Northrup was declared duly elected.

The usual suggestions exhibiting a strong desire to further the best interests of the city, the Council adjourned.

SAVAGE BRUTALITY.—A case of inhumanity was brought to our knowledge yesterday which baffles description, and puts to blush the worst accounts of barbarity we have heard of, when it is remembered that it is now practiced under the shadow of the cross of a christian community, in the full pursuit and enjoyment of life, liberty and happiness. We give the case, and leave the rest to our readers feelings. A child stopping with [illegible] Irving on the "Stewart Donation" [illegible] in canyon leading from this city, [illegible] during a series of tortures for [illegible] offence, and was recently imprisoned in a privy [illegible] where it has been kept for [illegible] days without proper food to eat, with [illegible] Warm, and no bedding to sleep [illegible] being cruelly beaten the child [illegible] once to indicate that it had been [illegible] An attempt was made to rescue the [illegible] impending doom, by humane [illegible] which failed; whereupon petition [illegible] a writ of *habeas corpus*, which [illegible] and the proper papers were [illegible] and placed in the hands of Sheriff [illegible] who at once proceeded upon his mission [illegible] accompanied by two or three of our [illegible] Upon reaching their destination it [illegible] the facts had not been exaggerated, [illegible] brought the little sufferer to [illegible] residence in this city, where it will [illegible] attention. Warrants were issued [illegible] arrest of the inhuman perpetrator of the outrage, and the man was lodged [illegible] his wife, having small children of [illegible] was permitted to remain at home. [illegible] this morning, when an examination [illegible] case will take place in the County [illegible]

THE TEST.—United States Steamboat Inspectors, yesterday applied the hydrostatic test to the boiler of the steamer *Rescue*, and all other requisite investigations, after the examination in a thorough manner, expressing himself well satisfied with the result. He has with him all the necessary papers for the prosecution of his business, including, besides the usual documents of a practical engineer, a certificate of election and leading hose, gauges, &c., all of the best material and in good order. The boiler, which is of 5-16ths iron, will bear the hydraulic pressure of 165 pounds to the square inch, and would doubtless have sustained a greater pressure had it been tried. In the ratio provided by the law the engineer is authorized to carry 130 pounds of steam—a quantity exceeding probable demand during the year.

FESTIVAL.—The pupils of the Portland Female Seminary, contemplate holding a May Festival on Rose Island, a short distance above the city, to-morrow. Mr. Kellogg, of the steamer *Senator*, has generously tendered the participants a free passage to and from the Island landing, and they will meet at the Methodist Church at half past six o'clock in the morning. The boat will leave Vaughn's wharf at 7 o'clock. A pleasant time is anticipated.

REMOVAL.—The two young and happy couples spoken of yesterday morning as being about to sail to Vancouver, returned yesterday morning, having shipped for a voyage over the sea of matrimony. Warm weather seems to produce anomalous results in these regions, for this week having witnessed the nuptials of no less than five couples at the Gretna Green of Oregon.

EARLY OPPOSITION.—This morning, according to previous announcement, the opposition on the Dowlitz route commences. The *Cowlitz* and *Express* both leave for Monticello at Cumbrey's Landing, and we have no doubt their trips will be quick, and fares low for the times. These episodes are fun for the public, but death to steamboat owners.

STEAMER FOR THE UPPER COUNTRY.—Messrs. Parks & Gilmore have recently dispatched several steamer loads of sheep, besides a large number of cattle, for the mining region, for consumption.

A YOUNG INQUIRER.—A few mornings since a lady with her two children, who are on a brief visit to this city, were at the table of a family accustomed to say grace before meals. The eldest, a sharp child of about five years, listened silent and attentive during the ceremony, and kept very serious until he left the table, when he went quietly to his mother and asked her what the gentleman was doing before they commenced to eat. The mother inquired who gave him all the good things he had all the time? He replied: "God." "Well," said she, "the gentleman was thanking God for all the good things." The next day, the gentleman being unwell, did not attend the table, when little Barnet asked—"then how we going to thank God for these good things?"

ALL the furniture of the Monitor Hotel will be sold at auction this morning, on Front street, opposite the What Cheer House. See advertisement.

ERRATA.—The number of prisoners taken by the rebels at Plymouth, N. C., was reported at 15,000—it should have read "fifteen hundred."

A Special Meeting of the Ladies' Hebrew Benevolent Association will be held on Sunday, May 1st, 1864, at 2 P M, at the Vestry Room of the Synagogue.

IDA BERGMAN, Secty.

KEEP IT BEFORE THE PEOPLE.—That Shelby has received by this steamer the finest assorted stock of Boots and Shoes that has ever before been offered in this market. An ocular demonstration would convince you of the fact. See to it, and consult your interest.

Convalescence after Typhoid Fever.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established. In such cases the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed. ap25d6t

Dr. Hostetter's Stomach Bitters.—The operation of this palatable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties, and it is recommended to mothers, enfeebled by the cares and duties of maternity, as the safest and best tonic they can probably use. In all the crisis of female life it will be found eminently useful, and elderly persons will derive much more benefit from it than from ordinary stimulants.—Sold by all Druggists and Dealers everywhere. ap20d1m

THE ASTONISHING SUCCESS WHICH HAS attended this invaluable medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivalled as a remedy for the permanent cure for the maladies above mentioned, and also

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease any way connected with the disorders or decay of the Procreative Functions. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the uprising and relaxed organization is at once refreshed, revivified and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of an almost lethalic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor. The medicine reaches the CONSTITUTION itself, and restores it to its normal condition

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS AND CATARRH OF THE BLADDER, STRANGURY AND BURNING OR PAINFUL URINATING, CALCULUS, GRAVEL, BRICK DUST DEPOSIT AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give praise to

PERUVIAN SYRUP,
OR PROTOXIDE
Solution of Protoxide of Iron,
Has been used with Great Success in Curing
DYSPEPSIA,

Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Female Complaints, Chronic Diarrhœa, Boils, Scurvy, the prostrating effects of Lead or Mercury,

GENERAL DEBILITY,

and all Diseases which require a

Tonic and Alterative Medicine.

THE PROOFS OF ITS EFFICACY are so numerous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The class of diseases for which the Syrup provides a cure, is precisely that which has so often baffled the highest order of medical skill. The facts are tangible, the witnesses responsible, and the safety and efficacy of the Syrup incontrovertible.

From well-known Citizens of Boston.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

Certificate of Dr. Hayes.

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point is attained by combination with HYPOPHOSPHOROUS ACID; and this solution may replace all the nitric carbonates, citrates and tartrates of the Materia Medica. A. A. HAYES, M. D.,

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been prescribed the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER,

without a solvent. This considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see "American Medical Monthly," July 6, 1859, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms. Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color, his face is pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

Sold by all Druggists. Price, $1 per bottle. Prepared by Dr H. Anders & Co, Physicians and Chemists, New York.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE REMEDY upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and bring the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken-down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be opposed; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthy invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without enfeebling the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative. Immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances and derangements to which, as a sex they are subject. It checks and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

Mistress Glenare.

A virtuous woman is Mistress Glenare—
Or, at least, as the world in its judgment would say:
With an orderly walk and a creditable air,
She never departs from the popular way.
Every word that she speaks is well measured and weighed;
Her friends are ever tenderly scrupulous care;
And in all that she does in her prudence displayed,
For a virtuous woman is Mistress Glenare!

Her youth has departed, and with it has fled
The impulse that gives to the blood a new start,
Which oftentimes turns from the yearning head
To trust to the wisdom of God in the heart:
Thus the robes of her purity never are stained,
And her feet are withheld from the pitfall and snare;
Where nothing is ventured, there nothing is gained—
O, a virtuous woman is Mistress Glenare!

She makes no distinction of sinners from sin;
Her words are like arrows, her tongue is a rod;
She sees no excuse for the evil within;
But condemns with the creed of a partial God;
On the background of darkness, of sorrow and shame,
Her own reputation looks sta nless and fair;
So she builds up her fame, through her neighbor's bad name,
O, a virtuous woman is Mistress Glenare!

She peeps and she listens, she watches and waits
Nor Satan himself is more active than she
To expose in poor sinners the faults and bad traits,
Which she fears that the Lord might not happen to see.
Whilst the father of spirits looks down from above
On the good and the evil, the frail and the fair,
How must he regard, with *particular* love
This virtuous woman—good Mistress Glenare!

O, Mistress Glenare! in the drama of life
You are acting a very respectable part;
You have known just enough of its envious strife
To receive both the world and your own foolish heart.
But any indulgent moments of clear poromus sense
Did you never in truth and sincerity dare
To ask the plain question aside from pretence,
How you looked to the angels, dear Mistress Glenare?

The glory of God has enlightened their eyes;
No longer, through darkness, they see but in part,
And the robes of your righteousness do not suffice
To cover the lack of true love in the heart:
You look shabby, and filthy, and ragged and mean—
Even while those you condemn you but poorly compare
Go, wash sun in Charity till you are clean;
You will change for the better, dear Mistress Glenare.

Your thoughts have been run in the popular mould,
Like wax that is plastic and easily molte;
Till now, like a nondescript, lo, and behold!
You are neither yourself, nor yet any one else.
Of tender compassion, forgiveness and love,
Your nature has not a respectable share:
You are three parts of serpent, an t one of the dove,
Very badly proportioned, dear Mistress Glenare!

Your noblest and purest affections have died,
Like summer-dried roses your spirit within:
Your heart is grown arid, and scarce is supplied
With sufficient vitality even to sin.
But would you prove true to your virtuous name,
There is one we commend to your tenderest care;
To deal with her wisely will add to your fame;
That poor sinful woman is—Mistress Glenare!

—*Lizzie Doten.*

Home from the War.

(Concluded.)

The old smoke-stained walls were wreathed with feathery garlands of cedar and pine, with the scarlet berries of the mountain ash glowing here and there; the great fire roared up the chimney with festive sound, and all the neighbors were gathered round Farmer Atterly's hearth-stone—for pretty Bessie was to be married that night.

"She don't look as a bride ought to, somehow," whispered Mrs. Doscon Jennings to her companion, Mahala Bird. "She seems to me jest like one o' them snow-wreaths down in the hollow yonder."

"Maybe its that white dress," said Mahala; "but she *does* look like a corpse. Land o' Goshen! what be I sayin'? It ain't considered good luck to talk about corpses on a weddin' night."

For the pretty bridesmaids had just led Bessie in, robed in pure cheeny silk, with snowy geraniums in her hair, and not a vestage of color in her cheek.

"There! don't she look sweet?" said Susan Jennings. "Is it time to go into the parlor yet?"

"Massy! no my child!" said Mrs. Jennings; "not for an hour. Why, Jim Grayling hasn't come yet!"

So Bessie sat down in the midst of the assembled maids and matrons, and played with the white flowers in her bouquet, thinking—who knows what? Perhaps a lonely grave under the cruel southern stars; perhaps the fair face of the woman who had wiled her lover's heart away.

Somebody spoke to her; she looked up, and all at a sudden her frightened eyes traced a figure beyond the open door opposite to which she sat—a figure hurriedly passing through the crowd.

"Where is she? I will see my own Bessie—wedding or no wedding! Who has a better right than I?"

The next moment, the pale, white-robed bride lay, like a fair, still statue, in Henry Ives' arms.

"Stand off, I say!" he cried fiercely. "Let no one come between me and the woman I love. I have earned her to be my wife—earned her by long months of pain and suffering—earned her by wounds received upon the battle-fields of the country she loves! Do you say she is to be married to James Grayling? What has James Grayling done with the letters I sent to his care?—with all the messages I entrusted to him? She had better be in her grave than married to James Grayling! Mr. Atterly, you are a just and good man; judge between me and the treacherous foe I trusted was my friend."

"Harry, Harry!" faltered the old man, "I never dreamed o' this. Tell us all about it, my boy, for my old head swims."

And Harry Ives, still holding Bessie to his heart, revealed the story of his own truth and James Grayling's villainous duplicity. When he had finished the impassioned recital, Moses Atterly clasped the brown, strong hand between his own horny palms, and said, solemnly:

"My boy, I ask your pardon for every doubt that ever crossed my mind, and I thank the merciful Providence that has spared Bessie from bein' Jim Grayling's wife. We were calculatin' to have a weddin' here to-night; and it isn't too late yet, if Harry hasn't no objections to bein' married in his soldier clothes."

"Father!" interposed Bessie, now as rosy as a whole bouquet of blooming carnations blended into one; but Harry took her hands in his, whispering:

"Love! I shall not feel secure until I can call you *wife!*" and the remonstrance died away upon her lips.

"Are you already for the ceremony, Elder Wilkins?" said Moses; "cause I b'lieve the young couple is."

Ah! she looked like a bride *now*, with the hazel light burning in soft fires under her long curled lashes, and the carmine dyes coming and going upon her cheek, like a proud and blushing virgin.

The ceremony was scarcely over before the silver chimes of sleigh bells sounded at the door, and James Grayling's voice was heard, exclaiming:

"I'm afraid that I'm a little late; but the horse sprained one of his legs, and I had to get him changed at Squire Warrenton's—However,——"

"Yes, Jim Grayling, you *are* a little late," said Moses Atterly, taking an unusually prodigious pinch of snuff: "for my darter's married already."

"Married!" ejaculated James Grayling, as if more than half uncertain whether his intended father-in-law was not a fit candidate for the lunatic asylum.

"Yes—to Harry Ives!!

As Grayling's bewildered eye caught sight, in the brilliantly-lighted rooms beyond, of the young soldier, bending his head to listen to some whispered word from Bessie, he turned a dull, dead yellow, and a chill dew broke out around his mouth.

"What does this mean?" he asked.

"It means, Jim Grayling, that you're a scoundrel!" said the old man, with sudden fire flashing in his eyes. "There's the open door—leave the house before Harry Ives sets eyes on you; he's a spirited lad, and much mischief might come of it! And now, hark ye—never let me see your villainous face again!

Silently, and like a wounded snake, James Grayling crept out into the chill darkness of the tempestuous night, a defeated disappointed man. And so effectually did he take Moses Atterly's advice that the quiet little village in the hollow knew his name and presence no more.

And Bessie Ives, the happiest little wife in the whole world, sings softly over her work, counting the days until, "when this cruel war is over," she shall welcome her soldier husband back to the grand old pine forests of Maine once more.

A Queer Way of Getting to a Dinner.—Sheridan once got a dinner in a queer manner. He went into the House of Commons, and sat down by Michael Angelo Taylor, saying, "A law question will soon arise, on which you will be expected to reply to Pitt, so don't leave."

Michael sat down, and Sheridan slipped out, walked over to Michael's house and ordered up dinner saying to the servants, "Your master is not coming home this evening."

Having dined, he returned to the House, and went to release Michael, saying, "I am sorry to have kept you; for, after all, I believe this matter will not come off to-night."

Michael instantly walked home, rang for dinner, and felt somewhat vexed when told that Mr. Sheridan had, sir, about two hours ago."

Nothing is Forgotten.—There is no such thing as forgetting possible to the mind. A thousand accidents may, and will, interpose a veil between our present consciousness and the secret inscriptions of the mind; accidents of the same sort will also tend away this veil; but alike, whether veiled or unveiled, the inscription will remain forever; just as the stars seem to withdraw before the coming light of day; whereas, in fact, we all know that it is a light drawn over as a veil, and that they are waiting to be revealed when the obscuring daylight shall have withdrawn.

The Best Sort.—The buxom, bright eyed, full-breasted, bouncing lass, who can darn a stocking, mend trowsers, make her own frock, command a regiment of pots and kettles, feed the pigs, milk the cows, and be a lady withal in company, is just the sort of a girl for a young man to marry; but you, ye pining, lolling, screwed-up, wasp-waisted, putty-faced, consumption-mortgaged and novel devouring daughters of fashion and idleness, you are no more fit for matrimony than a pullet is to look after a family of fifteen chickens.

A Yorkshire jockey had occasion to go to France. When he arrived at Calais he was surprised to hear the men speaking French, the women speaking French, and even the little children jabbering away in the same tongue. In the height of his perplexity he retired to his hotel, and was awakened in the morning by the cock crowing, whereupon he burst into a wild exclamation of astonishment and delight, and exclaimed: "Thank goodness, there's English at last."

"Jeems, my lad," said a hopeful father to his son, "keep away from the gals! Ven you see one comin', dodge. Just sich a critter as that young 'un chasin' the dollar stop on t'other side of the street, fooled yer poor old dad, Jimmy. Don't cast yer eyes that way and wink. If it had n't been for her, you and yer dad might a been in Brazil huntin' dimons, my son."

"I'm very sorry," said a learned judge to a young woman, who hesitated much in giving some very unpleasant evidence, "I am sorry to have to enforce such an explanation as this; it must, of course, be painful to any decent person, but the ends of justice require it; and not only so, but all the well-dressed females you see on either side of me, have come a long way to hear that which it pains you so much to utter."

A Cutting Retort.—After the young Mr. Pitt had made his speech in the House of Common's, Sir Robert Walpole, in a sarcastic tone remarked: "I apprehend the *young* gentleman has not sown all his wild oats." To which Mr. Pitt replied in a rejoinder: "*Age* has its privileges, and youth may have its faults; but the gentleman affords ample illustration that I still retain food enough for *geese* to pick at."

Novel Explanation.—Quilp says that women, as a general thing, are happier than men, and assigns as a reason for the fact that the felicity of the former lies mainly in dry goods, whereas the latter commonly need "something wet" in addition. Excepting on occasions of great calamity—every well dressed woman, (continues the satirical Quilp) is in a serene and thoroughly comfortable state of mind!
